"THE ANXIETY SONG"

words & music by Robert Blaylock

```
G                          D                    Em
  Do not be anxious in  anything, but  in  everything
G                          D                    Em
  Do not be anxious in  anything, but  in  everything
Cmaj7                              Fmaj7
       By prayer and petition,      and with thanksgiving,
Cmaj7                                  D
       Make your requests known to God.
              C    C(Bbass)  Am7 Am7(G bass)
And the peace   of          God,
              D
which transcends all understanding
       C              C(Bbass)     Am7              D
will  guard  your  hearts and minds in Christ Jesus.
G                        D                          Em
   Do not be anxious  -  do not be anxious in anything.
G                        D                          Em
   Do not be anxious  -  do not be anxious in anything.
```
